# Preface

We are pleased to launch a thoroughly revised edition of this workbook. We welcome feedback from students, teachers, educators and parents. For improvements in the next edition, please send your suggestions at [info@crestolympiads.com](mailto:info@crestolympiads.com). Our team will make an effort to work on those suggestions.

CREST Olympiads is one of the largest Olympiad Exams with students from more than 60 countries. The objective of these exams is to build a competitive spirit while evaluating students on conceptual understanding of the concepts.

We strive to provide a superior learning experience, and this workbook is designed to complement the school studies and prepare the students for various competitive exams including the CREST Olympiads. This workbook provides a crisp summary of the topics followed by the practice questions. These questions encourage the students to think analytically, to be creative and to come up with solutions of their own. There is a previous year's paper given at the end of this workbook for the students to attempt after completing the syllabus. This paper should be attempted in 45 minutes to get an assessment of the student's preparation for the final exam.

## 'Find the Letter' Game:

Choose a letter and circle that chosen letter as many times as it appears in the box given below:

### Example:

Let's make a circle around "n". How many 'n's can you find? Let's count them. Circle them all.

Can you name any 2 objects beginning with "n"? Think of more such words, if you are able to tell two words easily.

Now choose another letter and repeat the process, this time putting a square around it instead of a circle.

## Activity

Circle the correct option of lower case letters to match the corresponding upper case:
