Worksheet on Numerals Number Names and Number Sense

1. Which bag belongs to the same number written on the orange?

a.

b.

c.

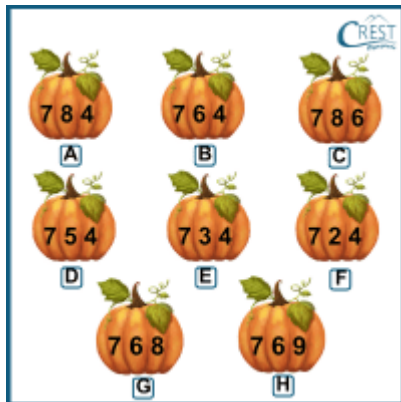

REST
Olympiads

d.

2. Which pumpkins have the largest and smallest number?

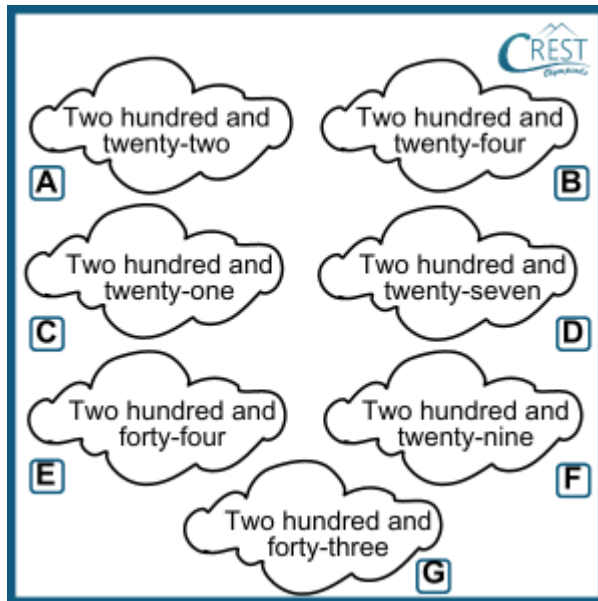

- a. B and F
- b. C and F
- c. F and A
- d. F and G

3. I am a three-digit number. I have seven in my one's place. The number present in my hundred's place is four less than the number present in my one's place. I have two in my ten's. Identify me.

- a. Three hundred and seventy-five.
- b. Three hundred and twenty-five.
- c. Three hundred and seventy-seven.
- d. Three hundred and twenty-seven.

4. Which clouds have odd numbers?

- a. D, F, B, G
- b. D, F, A, G
- c. D, F, C, G
- d. D, G, C, G

5. Which of the following does not correctly match?

- a. Four hundred and twenty-seven → 427
- b. Five hundred and forty-seven → 547
- c. Six hundred and thirty-seven → 673
- d. Eight hundred and fifty-three → 853

Answer Key

1. b -

Explanation: Number 749 written in orange belongs to the seven hundred and forty-nine printed on the bag.

2. b - C and F

Explanation: The largest number is 786 which is in pumpkin **C** and the smallest number is 724 which is in pumpkin **F**.

3. d - Three hundred and twenty-seven.

Explanation: In a three-digit number, the three place values are One's place, Ten's place and Hundred's place.

Digit at one's place = 7

Digit at ten's place = 2

The digit present at my hundreds place is three more than the number present at ones place
 $= 7 - 4 = 3$

Digit at hundred's place = 3

So, the number is 327 and its number name is three hundred and twenty-seven.

4. c - D, F, C, G

Explanation: Clouds C, D, F and G have odd numbers as 221, 227, 229 and 243.

5. c - Six hundred and thirty-seven → 673

Explanation: Six hundred and thirty-seven → 673 is not correct.

The correct number name is: Six hundred and thirty-seven → 637 and the number name for 673 is Six hundred and seven-three
